## EXPERIENCE

### The Bloc — Sr. Front End Web Developer

July 2024 – Present

- Lead multiple high-impact projects in the pharma industry, utilizing Next.js and modern front-end development practices.
- Collaborate with designers, creative teams, project managers, and client teams to gather requirements and conduct reviews.
- Translate designs from Adobe Illustrator and Figma into high-quality, responsive, and accessible web interfaces.
- Establish and enforce development best practices, coding standards, and scalable architecture across projects.
- Present and demo project progress and final deliverables to stakeholders, ensuring alignment and satisfaction.

### Rauxa / FKA — Front End Web Developer

November 2021 – July 2024

- Spearheaded the development of HTML, CSS, and JavaScript front-end templates, ensuring responsive and user-friendly designs.
- Led the creation of landing pages integrated with Adobe Marketo Engage, optimizing lead generation and campaign performance.
- Partnered with designers, creative teams, and clients to translate vision into functional, visually appealing interfaces.
- Integrated Drupal CMS with custom front-end frameworks to enhance usability and maintainability.
- Provided mentorship and technical guidance to junior developers, fostering skill growth and collaboration.
- Delivered presentations and live demos to audiences of 50+ stakeholders, showcasing project milestones and results.

### Genuine Interactive — Front End Web Developer

January 2019 – November 2021

- Delivered high-quality, ADA-compliant web interfaces using HTML, CSS, and JavaScript, enhancing accessibility for diverse audiences.
- Acted as Lead Front-End Developer for several major client projects, driving technical direction and team success.
- Contributed to custom front-end frameworks for seamless Drupal CMS integration, reducing development time by 20%.
- Coordinated with cross-functional teams to meet weekly goals, ensuring on-time delivery of projects.
- Provided technical support and training to clients and team members, enhancing platform adoption and satisfaction.

### Covered Security — Software Engineering Intern

May 2018 – December 2018

- Designed and implemented front-end components using Angular 6, contributing to a successful website redesign.
- Converted static web pages into dynamic, reusable Angular application components, improving maintainability by 40%.
- Developed and maintained unit tests for all new features using Nightwatch.js, ensuring high-quality code.
- Utilized AWS services (Elastic Beanstalk, DynamoDB, S3) to deploy and manage

## SKILLS

- HTML5
- CSS/SCSS/SASS
- JAVASCRIPT (ES5, ES6)
- REACT.JS
- ANGULAR.JS
- JQUERY
- GULP.JS
- Webpack
- Handlebars (Templating)
- ADA COMPLIANCE
- HTML EMAIL DEVELOPMENT
- VERSION CONTROL (GIT)
- Docker
- Drupal
- Wordpress
- NODE.JS
- RUBY ON RAILS
- GRAPHQL
- POSTGRESQL
- Adobe Marketo Engage (CMS)

- scalable applications.
- Collaborated with senior developers to streamline the front-end infrastructure, improving performance and scalability.
